

# PROJECT 14 SHOWCASE

## Project Name:

Signage

## Specifications:

Components: Lighted sign – 92"x42"  
Clear window cling – 24"x18"  
Garage door signs – 12"x36"

Material: 3/16" translucent styrene  
1/16" clear polycarbonate lens  
Clear static cling  
White aluminum panels

Finishing: CNC cut

Quantity: (2) of each component

## Client's Goals:

- The very best print quality available
- Double-sided back-lit panels
- Vandal-proof
- Optically clear clings
- Fade-resistant ink
- Fast turnaround

## Why We Do It Better:

- 1200dpi UV flatbed printing for stunning image quality
- Direct-print to large translucent styrene panels
- Polycarbonate lens to protect print from scratching
- Super-clear static cling with reverse-image print and opaque white ink for superior visibility
- Outdoor rated fade-resistant ink
