CNC Contour Cutting

Client's Goals:

- The very best print quality available
- Attractive design to grab attention
- Water- and tear-resistant
- Durable yet economical
- Flexible
- No fading
- Easy installation

Solution:

- 15pt white styrene
- 6-color UV flatbed printing
- CNC contour cutting to wave shape
- Two silver grommets

Production:

- UV printing with 6-color ink directly on 15pt white styrene
- CNC router-cut to wave shape with grommet holes
- In-house installation of grommets

Silver Grommet
