#### Why We Do It Better:

- · High-definition HP Indigo print quality
- Opaque white ink available for printing on clear and colored substrates. White ink can be printed under, over, or blended with 4-color elements for special effects
- Heavy substrates up to 18pt cover or 20pt rigid vinyl
- In-house UV coating and lamination to protect heavy ink coverage from scuffing and scratching
- Optically-registered digital cutting offers perfect registration between parts and superb edge quality.
- Turn-key solution with in-house mailing and fulfillment
