Why We Do It Better:

- Beautiful UV flatbed printing that offers vibrant colors and sharp details
- Flame-polished edges are crystal clear and look like glass even from the side
- Fade-resistant inks are also scuff and scratch-resistant
- White ink is printed under 4-color process for enhanced contrast and visibility when coaster is placed over dark surfaces
- Reverse printing allows the image to show through the acrylic for a super glossy view from the front
- Hundreds of parts are placed on a large vacuum table for cost efficiency and accurate placement

Coasters are held securely on a vacuum table during printing. Hundreds of parts are printed at the same time for maximum cost efficiency.
