

PROJECT 7 SHOWCASE

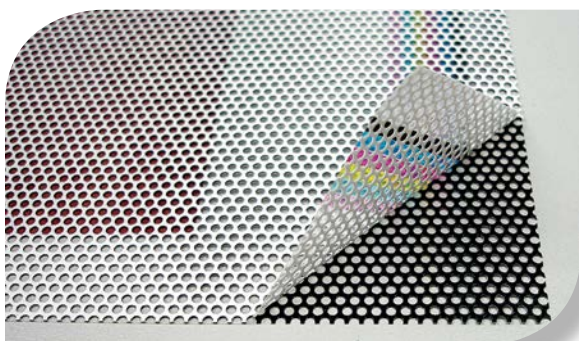

Perforated see-through window film

Viewing from the image side

Complete see-through from the back side

Back side has black adhesive and applies to window

Project Name:

Perforated Window Film

Specifications:

Size: 96"x45"

Material: See-Through Window Film

Printing: 6-color solvent inkjet, 720dpi

Quantity: 1 set

Client's Goals:

- The very best print quality available
- A window shade that allows one-way viewing
- Semi-permanent to permanent installation
- Low maintenance
- Economical

Why We Do It Better:

- Print on HP 9000 solvent inkjet for the best image quality
- Perforated window film to provide sufficient privacy when viewed from the outside, yet still provide excellent viewing from the inside
- Heavyweight vinyl installs easily and wrinkle-free
- Maintenance-free; can be cleaned if necessary
- Extremely durable, can be used on exterior windows without additional protection
